

NFL + HBCU STUDENT INITIATIVES

The NFL's strong commitment to diversity, equity, and inclusion in all facets of professional football is reflected within the various programs and initiatives we implement to provide access and exposure to students from Historically Black Colleges and Universities (HBCUs). We aim to develop a diverse pipeline of candidates and do so by providing undergraduate and graduate students nationwide with opportunities to develop professionally, showcase their talent, expand their network, and learn about the inner workings of careers at the League office and our 32 member clubs. Below are program summaries for opportunities at the League office available to students broadly, as well as initiatives exclusively designed for students from HBCUs.
